# Client Testimonials

Melanie Falvey

Every time I have a session with my Coach, the amazing [Alex Vitillo](#) , a.k.a. the Profit Coach, I feel unstoppable!

I love the combination of spiritual support and guidance and the business mastery she provides, a unique blend of modalities that anyone building an empire (wink, wink) needs.

She knows exactly what I need every time. It is such invaluable support that she provides as I grow as a leader.

As a coach myself and as a marketing strategist, I sometimes don't apply what I teach...

We all do that, sometimes there are blind spots or simply things we try to avoid because they might feel uncomfortable even if we know we need to do them.

It is so eye-opening to hear those things from someone else, it feel as if they have a magic button that will push you into action.

It works. every time.

Incredible to have a coach who genuinely has a strong background in finance, and business structure, and who happened to be someone who has always been gifted psychically, but who has actually invested in herself by developing those skills for business and self development so she can share this knowledge with others! Incredible. You're a treasure find

And you might give energetic & spiritual advice about money and business, but you are also an experienced long-term expert in business, finance and money economics. So don't be deceived by the carefree colour of her hair folks. The multi-dimensions to this woman's talents are prolific. You want to know about the true meaning of expansion in business? As I said, don't be deceived by the colour of her hair 🙄
